This decision is based on our finding from:

Washington State law which directs that the true and fair market value of property shall be based upon sales of the subject property, or sales of comparable properties, made within the past five years, cost, cost less depreciation, reconstruction cost less depreciation, or capitalization of income. "True and fair" value is market value; that is, the price to be paid by a willing buyer to a willing seller.

Washington State law further stipulates that the assessment determined by the County Assessor is presumed to be correct and can only be overcome by presentation of clear, cogent and convincing evidence that the value is incorrect.

The issue before the Board is the January 1, 2015, true and fair market value. A hearing was held on March 10, 2016 before the Board of Equalization. The appellant, Barbara Bradshaw, was not in attendance at the hearing and the Assessor's office was represented by Melissa Hortiz, Chief Appraiser

The Assessor valued the property at \$868,050 for the 2015 assessment year. The owners appealed, asserting a value of \$386,400.

The subject property is located at Road 10.5 NW, Quincy, Washington. Subject property is a 18.4 acre tract of land within the city limits of Quincy that is zoned residential for the northern portion of the parcel, and zoned industrial for the southern portion of the parcel. The parcel is currently being used for agricultural purposes and is in the Current Use Program with a current use land value of \$23,670.

The appellant stated in the petition the reason for appealing was: I could find no sales in the area that compared. 28 acres of our land was listed for 6 months last year at \$600,000 with no offers. The adjoining [sic] property was sold contingent, but sale failed due to lack of demand in the RE market. Farming value is about \$2500 per acre. Other issues relevant to your case: Crime in the Quincy area.

The appellant did not submit any additional evidence or any sales. The appellant did provide with the petition a Request for Waiver of Filing Deadline, dated October 21, 2015, stating she was out of the country from Sept. 2 – 28th, 2015.

The assessor representative submitted information to the board and the appellant. This information contained Quincy zoning map, 4 sales comparisons of development potential land sales, and 11 industrial land sales.

Ms. Hortiz provided the Board with a colored map showing the location of each parcel that is being discussed today.

9 acres of the subject is valued at industrial land rate due to being zoned industrial and located within the city limits of Quincy and 0.4 acres is valued as right-of-way

The Board finds the arguments presented by the appellant are not substantial enough to meet the clear, cogent, and convincing standard of proof necessary to offset the presumption of correctness established under RCW 84.40.0301. The Board finds the Assessor's Response to Real Property Petition dated January 6, 2016, which was mailed to the appellant and submitted as evidence in this hearing adequately reflect the subject's important value-related characteristics. Therefore, the Assessor's value is sustained at \$868,050. No clear, cogent or convincing evidence was received to prove the assessor was in error.

Dated this 22nd day of March, (year) 2016
